You are particularly familiar with one type of natural environment and are adept at traveling and surviving in such regions. Choose one type of favored terrain: arctic, coast, desert, forest, grassland, mountain, swamp, or the Underdark. When you make an Intelligence or Wisdom check related to your favored terrain, your proficiency bonus is doubled if you are using a skill that you're proficient in. Choose a type of favored enemy: aberrations, beasts, celestials, constructs, dragons, elementals, fev. fiends, giants, monstrosities, oozes, plants, or undead.

Alternatively, you can select two races of humanoid (such as gnolls and orcs) as favored enemies. You have advantage on Wisdom(Survival) checks to track your favored enemies, as well as on Intelligence checks to recall information about them.

When you gain this feature, you also learn one language of your choice that is spoken by your favored enemies, if they speak one at all.

You choose one additional favored enemy, as well as an associated language, at 6th and 14th level. As you gain levels, your choices should reflect the types of monsters you have encountered on your adventures. Since you come from the ranks of the common folk, you fit in among them with ease. You can find a place to hide, rest, or recuperate among other commoners, unless you have shown yourself to be a danger to them

. They will shield you from the law or anyone else searching for you, though they will not risk their lives

Emulating the Hunter archetype means accepting your place as a bulwark between civilization and the terrors of the wilderness. As you walk the Hunter's path, you learn specialized techniques for fighting the threats you face, from rampaging ogres and hordes of orc s to towering giants and terrifying dragons.

Dueling At 2nd level, you adopt a particular style of fighting as your specialty. Choose one of the following options. You can't take a Fighting Style option more than once, even if you later get to choose again. You gain a +2 bonus to attack rolls you make with ranged weapons. Defense While you are wearing armor, you gain a +1 bonus to AC. When you are wielding a melee weapon in one hand and no other weapons, you gain a +2 bonus to damage rolls with that weapon. Two-Weapon Fighting When you engage in two-weapon fighting, you can add your ability modifier to the damage of the second attack. Horde Breaker At 3rd level, you gain one of the following features of your choice. Colossus Slayer. Your tenacity can wear down the most potent foes. When you hit a creature with a weapon attack, the creature takes an extra 1d8 damage if it's below its hit point maximum. You can deal this extra damage only once per turn. Giant Killer. When a Large or larger creature within 5 feet of you hits or misses you with an attack, you can use your reaction to attack that creature immediately after its attack, provided that you can see the Horde Breaker. Once on each of your turns when you make a weapon attack, you can make another attack with the same weapon against a different creature that is within 5 feet of the original target and within range of your weapon. Primeval Awareness Beginning at 3rd level, you can use your action and expend one ranger spell slot to focus your awareness on the region around you. For 1 minute per level of the spell slot you expend, you can sense whether the following types of creatures are present within 1 mile of you (or within up to 6 miles if you are in your favored terrain): aberrations, celestials, dragons, elementals, fey, fiends, and undead. This feature doesn't t reveal the creatures' location or number. Thieves' Cant During your roque training you learned thieves' cant, a secret mix of dialect, jargon, and code that allows you to hide messages in seemingly normal conversation. Only another creature that knows thieves' cant understands such messages. It takes four times longer to convey such a message than it does to speak the same idea plainly. In addition, you understand a set of secret signs and symbols used to convey short, simple messages, such as whether an area is dangerous or the territory of a thieves' guild, whether loot is nearby, or whether the people in an area are easy marks or will provide a safe house for thieves on the run. Sneak Attack Beginning at 1st level, you know how to strike subtly and exploit a foe's distraction. Once per turn, you can deal an extra 1d6 damage to one creature you hit with an attack if you have advantage on the attack roll. The attack must use a finesse or a ranged weapon. You don't need advantage on the attack roll if another enemy of the target is within 5 feet of it, that enemy isn't incapacitated, and you don't have disadvantage on the attack roll. The amount of the extra damage increases as you gain levels in this class, as shown in the Sneak Attack column of the Rogue table. Expertise At 1st level, choose two of your skill proficiencies, or one of your skill proficiencies and your proficiency with thieves' tools. Your proficiency bonus is doubled for any ability check you make that uses either of the chosen proficiencies. At 6th level, you can choose two more of your proficiencies (in skills or with thieves' tools) to gain this Cunning Actiont Starting at 2nd level, your quick thinking and gaility allow you to move and act quickly. You can take a bonus action on each of your turns in combat. This action can be used only to take the Dash. Disengage, or Hide action Assassinate Starting at 3rd level, you are at your deadliest when you get the drop on your enemies. You have advantage on attack rolls against any creature that hasn't taken a turn in the combat yet. In addition, any hit you score against a creature that is surprised is a critical hit. Extra Attack Beginning at 5th level, you can attack twice, instead of once, whenever you take the Attack action on your Ability Score Improvement When you reach 4th level, and again at 8th, 10th, 12th, 16th, and 19th level, you can increase one ability score of your choice by 2, or you can increase two ability scores of your choice by 1. As normal, you can't increase an ability score above 20 using this feature. Beginning at 1st level, you have significant experience studying, tracking, hunting, and even talking to a Favored Enemy certain type of enemy. Choose a type of favored enemy: aberrations, beasts, celestials, constructs, dragons, elementals, fey, fiends, giants, monstrosities, oozes, plants, or undead. Alternatively, you can select two races of humanoid (such as anolls and orcs) as favored enemies. $You\ have\ advantage\ on\ Wisdom(Survival)\ checks\ to\ track\ your\ favored\ enemies,\ as\ well\ as\ on\ Intelligence$ checks to recall information about them. When you gain this feature, you also learn one language of your choice that is spoken by your favored enemies, if they speak one at all. You choose one additional favored enemy, as well as an associated language, at 6th and 14th level. As you gain levels, your choices should reflect the types of monsters you have encountered on your adventures.

Defensive Tactics At 7th level, you gain one of the following features of your choice. Escape the Horde. Opportunity attacks against you are made with disadvantage. Multiattack Defense. When a creature hits you with an attack, you gain a +4 bonus to AC against all subsequent attacks made by that creature for the rest of the turn. Steel Will. You have advantage on saving throws against being frightened. Land's Stride Starting at 8th level, moving through nonmagical difficult terrain costs you no extra movement. You can also pass through nonmagical plants without being slowed by them and without taking damage from them if they have thorns, spines, or a similar hazard. In addition, you have advantage on saving throws against plants that are magically created or manipulated to impede movement, such those created by the entangle spell. Uncanny Dodge Starting at 5th level, when an attacker that you can see hits you with an attack, you can use your reaction to halve the attack's damage against you. Trait Trance Elves don't need to sleep. Instead, they meditate deeply, remaining semiconscious, for 4 hours a day. (The ${\it Common word for such meditation is "trance.") While meditating, you can dream after a fashion; such}$ dreams are actually mental exercises that have become reflexive through years of practice. After resting $\frac{1}{2}$ in this way, you gain the same benefit that a human does from 8 hours of sleep. Keen Senses You have proficiency in the Perception skill. Fey Ancestry You have advantage on saving throws against being charmed, and magic can't put you to sleep. Mask of the Wild You can attempt to hide even when you are only lightly obscured by foliage, heavy rain, falling snow, mist,

You have proficiency with the longsword, shortsword, shortbow, and longbow.

and other natural phenomena.

A spell scroll bears the words of a single spell Beast Bond, written in a mystical cipher. If the spell is on your class's spell list, you can use an action to read the scroll and cast its spell without having to provide any of the spell's components.

Otherwise, the scroll is unintelligible.

If the spell is on your class's spell list but of a higher level than you can normally cast, you must make an ability check using your spellcasting ability to determine whether you cast it successfully. The DC equals 10 + the spell's level. On a failed check, the spell disappears from the scroll with no other effect.

Once the spell is cast, the words on the scroll fade, and the scroll itself crumbles to dust.

This spell scroll's saving throw DC 13 and attack bonus +5.

A wizard spell on a spell scroll can be copied just as spells in spellbooks can be copied. When a spell is copied from a spell scroll, the copier must succeed on an Intelligence (Arcana) check with a DC equal to 10 + the spell's level. If the check succeeds, the spell is successfully copied. Whether the check succeeds or fails, the spell scroll is destroyed.

Wondrous Item

2 Ioun Stone (Agility) 5,001 - 50,000 gr 0.3 Magic

Description

Your Dexterity score increases by 2, to a maximum of 20, while this deep red sphere orbits your head.

An Ioun stone is named after Ioun, a god of knowledge and prophecy revered on some worlds. Many types of Ioun stone exist, each type a distinct combination of shape and color.

When you use an action to toss one of these stones into the air, the stone orbits your head at a distance of 1d3 feet and confers a benefit to you. Thereafter, another creature must use an action to grasp or net the stone to separate it from you, either by making a successful attack roll against AC 24 or a successful DC 24 Dexterity (Acrobatics) check. You can use an action to seize and stow the stone, ending its effect.

A stone has AC 24, 10 hit points, and resistance to all damage. It is considered to be an object that is being worn while it orbits your head.

1 Wingwear 453 gp 2 Magic

Description

This snug uniform has symbols of air stitched into it and leathery flaps that stretch along the arms, waist, and legs to create wings for gliding. A suit of wingwear has 3 charges. While you wear the suit, you can use a bonus action and expend 1 charge to gain a flying speed of 30 feet until you land. At the end of each of your turns, your altitude drops by 5 feet. Your altitude drops instantly to 0 feet at the end of your turn if you didn't fly at least 30 feet horizontally on that turn. When your altitude drops to 0 feet, you land (or fall), and you must expend another charge to use the suit again.

The suit regains all of its expended charges after spending at least 1 hour in an elemental air node.
